BALK JOHN SUTHERIN.

Stopped Illegal Voters From Asylum Thus New Precinct.

The dividing of the Sutherin precinct in Topeka township and the making of a new preginct to be known as Hartsock's precinct is a move for the purpose of securing the insane asylum vote.

There are some 50 or 60 votes from the asylum which has heretofore been in the Sutherin precinct just west of town but will hereafter be in a precinct known as Hartsocks where there are not more than a half score of votes besides those cast from the asylum. At a township election John Sutherin was candidate for road overseer and was defeated on asylum vote on the grounds that the employes of the asylum are not actual residents of the community. Although the asylum people were in the majority and could control the organization of the board Sutherin won and the votes were not cast. An opinion was then secured from Attorney General Godard that the asylum employes were not entitled to vote in Topeka township.

At a meeting of the Republican county central committee a motion was made

ty central committee a morion was made that all who would not support the entire Republican ticket be oussed from the committee. Sutherin is and has been committeeman from his precinct for years. He caused a sensation by announcing at the meeting that he would not support Governor Stanley as the meeting that he would not support Governor Stanley as the meeting that he would not support Governor Stanley as the meeting that he would not support Governor Stanley as the meeting that he would not support the entire Republican ticket be oussed from my scientific screet formulas for making extracts of vanilla, benon, blood ora grant the committee of t not support Governor Stanley as the governor had appointed a Populist to be superintendent of the insane asylum and he offered his resignation. Later he was induced to remain on the committee and the matter was smoothed over. In order to secure the asylum vote without a challenge from Sutherin the mew precinct has been established. Sutherin did not submit without a fight in growing for a Chicago house, one have in the control of the challenge of the sloners to protest against the new pre-

TO BUILD A NEW YACHT. America's Defender of the Cup Not to Be the Columbia

New York Oct. 20.—An officer of the New York Yacht club is authority for the statement that a new boat will be built to defend the America's cup and that the Herreshoffs will be the builders. This is the first positive declaration fense of the trophy will probably be made at the regular meeting of the club to be held on October 25. It will now be left with the Herreshoffs to produce a boat that is faster than the Commbia. These builders have, perhaps,

reached the limit of lightness and safety in the matter of spars and rightness, but it is to be found out if they have reached these limits in the matter of hull construction, It will also be interesting to see, if will also be interesting to see, if with greater area of canvas than has yet been seen in the cup defenders, it can be made to stand and perform the service that is required. The yachting world will watch the outcome with much interest.

A cablegram to the World from Lon-don quotes Sir Thomas Lipton as saying of the terms and conditions of the yacht ruces:
"If the New York Yacht club should

"If the New York Yacht club shound err at all in dealing with these arrangements I believe they would err in my favor." As a rule there is not so much wind "As a rule there is not so much wind "As a rule there is not so much wind the Santa Hook course as I should the Carlinville, Ill.

As a rule there is hot so much wind at the Sardy Hook course as I should like. There are other parts of the coast where we could more depend on getting a stiff breeze, but advantage or disadvantage in that respect would apply to any account of the coast of the coas both yachts, "Personally, I much prefer to sall over the course where previous attempts have been made to win the cup."
